

MUDIT TYAGI

Frontend & Full Stack Developer | React Developer

+91 9058192304 <https://mudittyagi.in> · mudittyagi.dev@gmail.com · [linkedin.com/in/mudittyagi11](https://www.linkedin.com/in/mudittyagi11) · github.com/Mudit-tyagi-dev

PROFESSIONAL SUMMARY

BCA student and **Frontend & Full Stack Developer** with hands-on experience building responsive web applications using React.js, JavaScript and modern UI technologies. **Experienced in developing SaaS platforms, dashboards, real-time interfaces and production websites, with backend experience in Node.js, Express.js, REST APIs, MongoDB and PostgreSQL.** Comfortable working across frontend development, API integration, database operations and deployment. **Winner of GeeksforGeeks HackFest 2026 and Student Chairmen of the Coding Club, IMS Noida,** passionate about building scalable, high-performance web applications.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, GSAP, Framer Motion, Lenis
Backend	Node.js, Express.js, REST API Design.
Databases	MongoDB, PostgreSQL.
DevOps & Tools	Docker, Git, GitHub, Vercel, Render.
Core Concepts	Responsive Web Design, Component-Based Architecture, API Integration, Authentication, CRUD Operations, State Management, Performance Optimization, SEO Basics
Soft Skills	Leadership, Critical Thinking, Communication, Time Management

EXPERIENCE

Web Developer — Vipin Tyagi & Company

March 2026 – Present | Ghaziabad, India

Website: www.vipintyagiandcompany.com

- Designed and developed the firm's production website using **React.js, Tailwind CSS, GSAP, Framer Motion and Lenis.**
- Built responsive layouts and reusable components for desktop, tablet and mobile devices.
- Implemented SEO-focused page structure, navigation and interactive sections.
- Deployed the website on **Vercel** with custom domain configuration.
- Currently maintaining the website and working on UI improvements, responsiveness, animations and performance.

PROJECTS

PulseBI – Business Intelligence Dashboard | · bi-fast.vercel.app

Tech Stack: React.js • Chart.js • WebSockets • FastAPI • Pandas • Gemini AI

- Built an AI-powered Business Intelligence dashboard for automated data visualization and business insights from raw datasets.
- Built a React frontend with Chart.js (react-chartjs-2) and WebSocket integration for real-time, interactive dashboards and live data updates.
- Integrated Google Gemini AI + FastAPI + Pandas backend pipeline for automated data analysis and natural language querying.
- Designed reusable frontend components and optimized dashboard performance for a seamless user experience.

AssetFlow – SaaS Asset Management Platform |

Tech Stack: React.js • Tailwind CSS • Node.js • Express.js • PostgreSQL

- Collaborated in a **3-member team** to build a **SaaS-based Enterprise Asset & Resource Management System** for centralized asset tracking and resource management.
- **Led the complete frontend development** using **React.js**, building responsive dashboards, authentication screens, role-based interfaces, and reusable UI components.
- Integrated REST APIs to implement asset management, resource booking, maintenance workflows, and dashboard interactions with seamless frontend-backend communication.

FactlyAI – AI-Based Fact Checking Tool | · factlyai.vercel.app/

Tech Stack: React.js • WebSocket • Zustand

- Factly AI is an intelligent information verification platform that instantly analyzes content using **real-time web search and advanced AI reasoning**.
- Designed a clean, intuitive UI with real-time structured result delivery, improving user experience for fact-checking workflows.
- Integrated multiple REST APIs for multi-source claim analysis with structured JSON response parsing..

Personal Developer Portfolio | · <https://mudittyagi.in/>

Tech Stack: React.js • Tailwind CSS • GSAP • Framer Motion • Lenis

- Designed and developed a responsive personal portfolio to showcase projects, technical skills and development experience.
- Built interactive UI animations using GSAP and Framer Motion with smooth scrolling using Lenis.
- Created reusable React components with responsive layouts for desktop, tablet and mobile.
- Deployed the portfolio on Vercel.

EDUCATION

Bachelor of Computer Applications (BCA)

IMS Noida | CCS University (CCSU)

CGPA: 7.4/10 (through 2nd Year)

2023 – Present

Noida, India

Higher Secondary (Class 12, CBSE) – 87%

Saint Angels Public School, Baghpat

2022

Secondary School (Class 10, CBSE) – 90%

Holy Child Academy, Khekhra

2020

ACHIEVEMENTS & LEADERSHIP

- **Winner – GeeksforGeeks HackFest 2026:** Secured **1st Place** by developing an innovative solution in a national-level hackathon.
- **Finalist – Odoo Hackathon 2026:** Cleared the virtual qualification round and advanced to the final round with a team-based software solution.
- **Student Chairmen – Coding Club, IMS Noida:** Leading a community of student developers by organizing technical workshops, coding events, and peer-learning initiatives.
